NATURAL VAPORIZING HUMIDIFYING SYSTEM AIR-WASHER

- Room Area : 35m²
- Humidity Output : 820cc/hr
- Power : 1Φ/220V/60Hz
- Energy Consumption : 27W

PRODUCT OVERVIEW

Best Humidity output

820cc/hr

Independent Air-purifying

In humid weather, air-purifying function can be operated independently with humidifying OFF.

Best Energy Efficiency

27W

Slide Pad

easy mobility

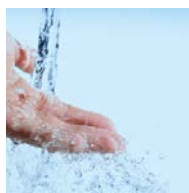

Least Noise

Max operation 42dB

“Smart” Automatic operation

Auto humidifying according to Indoor temperature

Purifying room area

35m²

Humidifier function On/Off

Independent humidifying On/Off function

Antibacterial Water tank

Blue Glass which contains Silver ion(Ag⁺) controls bacteria, mold in water tank

Mood Light

Mood light and level indication lamp on front panel

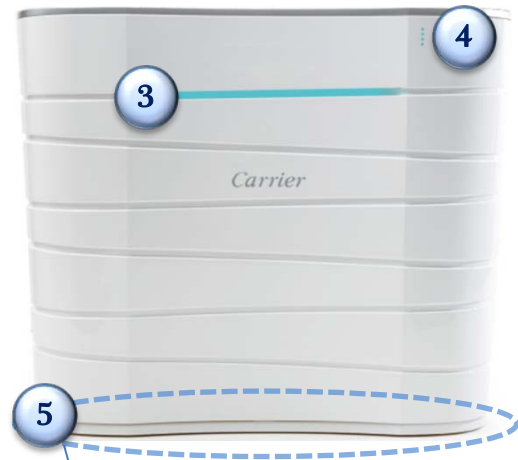

DESIGN

Flexible Wave shape with compact design.

1. **Upside Display** for easy check

2. **Touch button** realized smooth and mild appearance without salient

5. Easy mobility with **Slide Pad**

4. **Front LED** shows easy water level indication

3. **Mood Light** on the front panel

FEATURES

Best Humidifying and Least Noise

- Realized 820cc/hr with advanced air-conditioning technology
- Exclusive internal design produces the least noise with DC motor.

BLDC Fan Motor

- High Energy Efficiency

Natural vaporizing humidifying

- High Humidifying Rate of 820cc/hr

3 layers air-purifying system

- Strong air-purifying with HEPA filter and deodorizing filter.

Light

- Mood light on the front panel.

Slide Pad

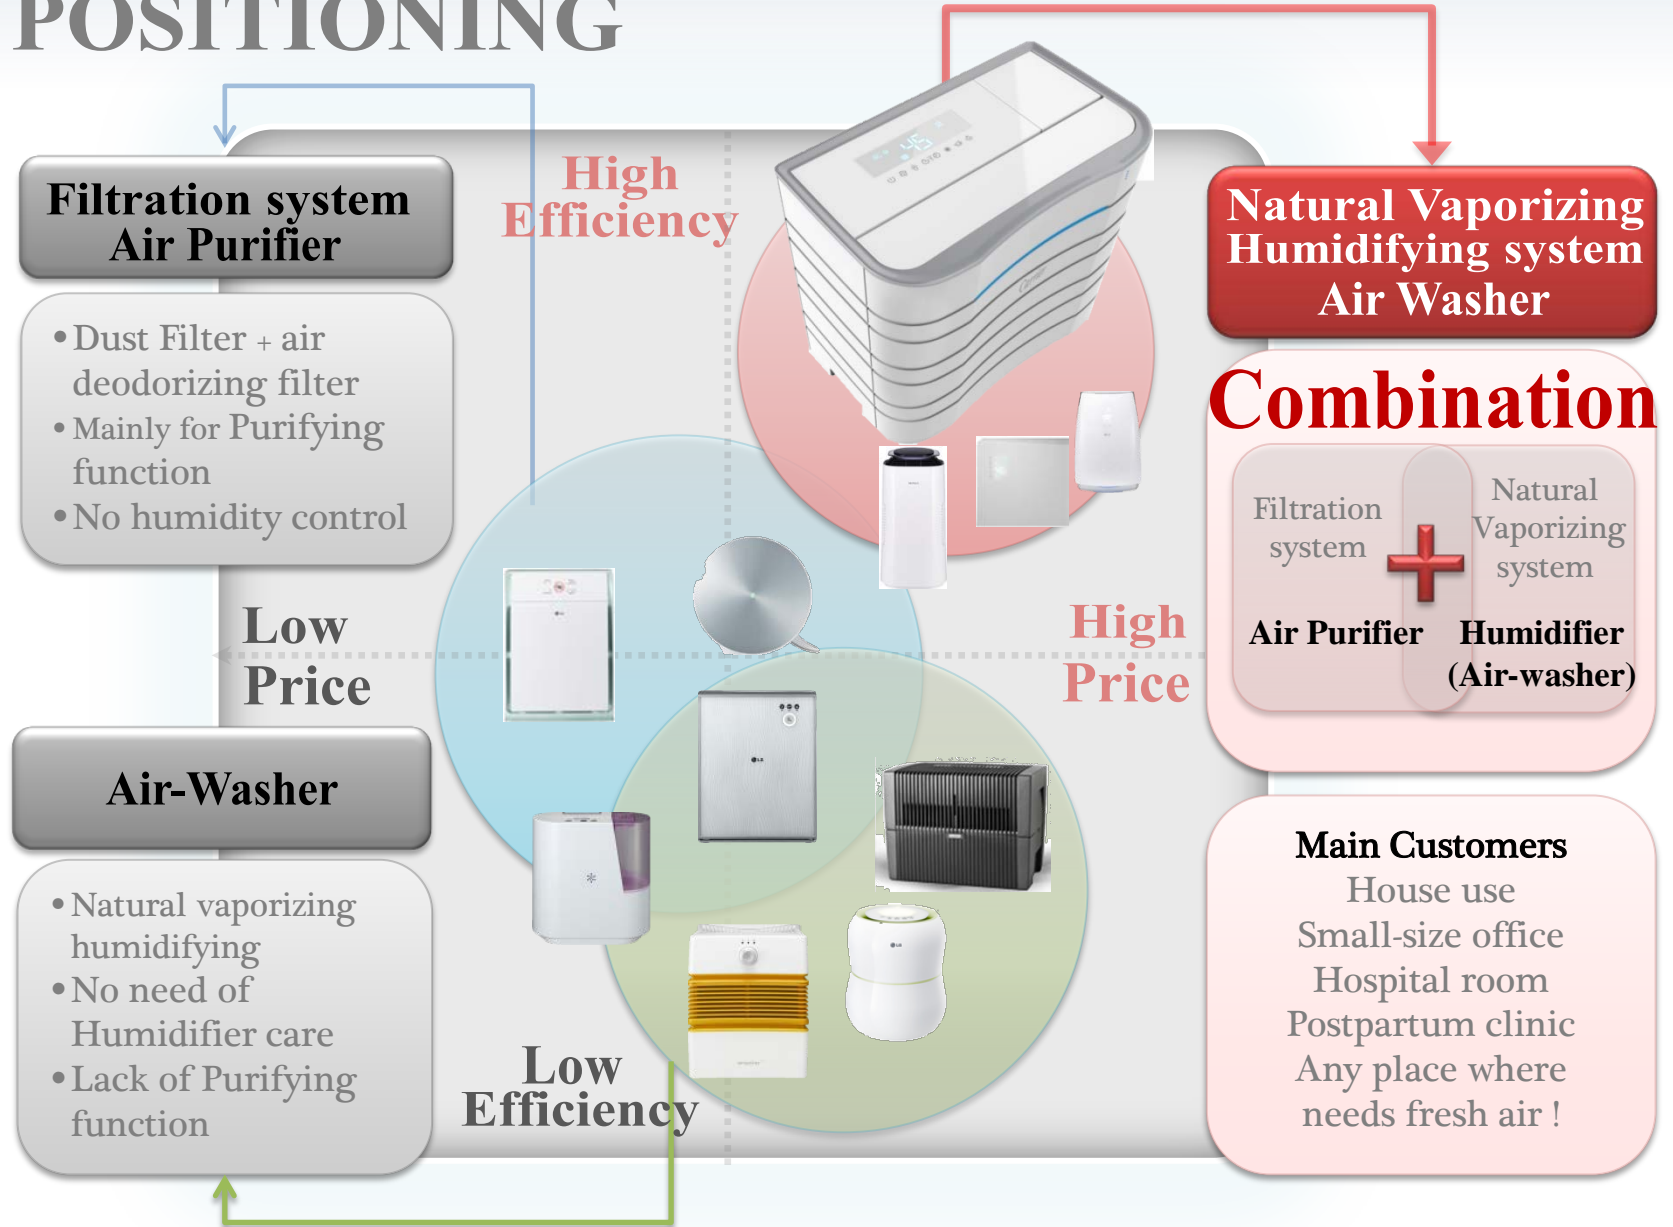

- Easy to move

Silver Ion release

- Antibacterial Water tank
